

Transforming Tanzania's Sugar Industry: Inside the K4 Factory Expansion Project

The Kilombero Sugar K4 Expansion Project is a game-changer for Tanzania's sugar industry and economy. With over TZS 744 billion invested, the project aims to fast-track national sugar self-sufficiency. Launched in 2021 and inaugurated by President Samia Suluhu Hassan, K4 is set to become the largest sugar plant in Eastern and Central Africa. The expansion strengthens Kilombero Sugar Company's regional leadership while driving economic growth, job creation, energy generation, and support for cane growers.

DOUBLED
PRODUCTION
CAPACITY

FROM 144,000 TO
271,000
TONS OF
SUGAR
ANNUALLY
